How to Isolate

A GUIDE FOR MORNINGSIDE STUDENTS

If you have been diagnosed with COVID-19, you will be asked to isolate for a minimum of 10 days before returning to work or class. You may also be asked to isolate while awaiting test results. Columbia University is here to support you as you navigate this period of uncertainty. Please work directly with your school's leadership on academic and research continuity.

Hearing that you need to isolate and disconnect from others may be disconcerting, but the goal is to ensure that you are healthy, while also protecting others from exposure to illness.

WHAT TO HAVE ON HAND

Some people may isolate in their own room or residence; others may need to relocate. During this time, you will want to have enough clean clothes for the entire 10-day period, as well as a pillow and blanket, your cell phone, and laptop. You’ll also need a toiletry kit, eyewear, and any prescription and non-prescription medications.

YOUR SELF-CARE KIT

Be prepared with a self-care kit that contains:
- Digital thermometer (for daily use)
- Hand sanitizer (for times you can’t wash)
- Alcohol wipes (for cleaning, as needed)
- Water bottle (stay hydrated!)
- Temperature and symptom log (see next page)

WHAT TO WATCH FOR...

Symptoms related to COVID-19 include:
- Fever (above 100.4°F)
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

In more severe cases, infection can cause pneumonia and other complications, especially for older individuals and those with other health conditions.

MONITORING YOUR SYMPTOMS DURING ISOLATION

Please take your temperature twice daily and record your symptoms on the health log located on the next page. If you develop symptoms or need medical triage/help while in isolation, please call Columbia Health at 212-854-7426. A nurse will determine if you should leave the premises to seek medical attention. A Medical Services provider will check in with you each day and will let you know when you no longer need to remain in isolation.

WHILE YOU’RE IN ISOLATION

Remain at home for the entire period. This means:
- Do not go out, except when recommended by a medical professional.
- Do not use public transportation.
- Maintain distance (approximately 6 feet or 2 meters) from others.

COMMUNICATION WITH FAMILY

Your personal health information is confidential. You will need to sign a release before our staff will be able to speak with your parents or other family members or friends.

SUPPORT IS A PHONE CALL OR CLICK AWAY

You are a valued member of the Columbia community, and your health and well-being are important to us. Columbia Health is here to assist you if you need help.

(available 24/7)

Columbia COVID-19 Website
 covid19.columbia.edu

If you feel you need immediate treatment of very serious or critical conditions, call 911.

If you decide to go to the emergency department on your own, if possible call the ER prior to your arrival so they can be prepared to potentially isolate you when you arrive.
If your temperature is >100.4°F, or if you feel like you have a fever, and you have a cough or shortness of breath, call Columbia Health at 212-854-7426 to discuss symptoms. Note: COVID-19 symptoms and some cold/flu symptoms can be similar. Please consult with Columbia Health right away.

COMMON FEELINGS
Everyone reacts differently to stressful situations that require changes in location or behavior. When you're out of circulation, you may experience a range of feelings, including:
- Anxiety, worry, or fear related to your health status or that of others
- Anger or resentment at the inconvenience
- Worry about not having your things with you or not doing your usual routine
- Uncertainty or concern about how long you will need to remain in this situation
- Excitement to have some alone time to rest and catch up on reading
- Loneliness or feeling cut off
- Boredom and frustration
- Sadness or depression
- Symptoms of post-traumatic stress disorder

Please contact Counseling and Psychological Services (CPS) at 212-854-2878 if you need immediate counseling care. A provider is available to speak with you over the phone 24/7. CPS will also be offering virtual support spaces for students in isolation.

Your Daily Health Log
Please record your temperature twice daily and write down any symptoms or concerns.
